

DRAINAGE ASSISTANT

As our Drainage Operative, you will help support our engineers and drivers operate CCTV drainage equipment and high-pressure water jetting equipment on various jobs. Your daily responsibilities will consist of emptying gullies, cleaning drains, assisting with CCTV drainage camera works, and tank cleaning. No two days are the same!

Having existing knowledge of drainage and a CSCS card is required for this role, and qualifications relating to high-pressure water jetting, working at height, and confined spaces would support your application. Full training will be provided in line with Subscan procedures.

You will have an opportunity to become an important part of Subscan. Our training and commitment to our people will provide you with good prospects for a long career with us.

What are we looking for?

2 years or more experience in the drainage industry

CSCS card required

Role-specific qualifications such as high-pressure water jetting, working at height, and confined spaces

Good experience using various drainage equipment and tools

Competent in using IT equipment such as a mobile phone or tablet device

Ability to work effectively as team

Subscan UDS Ltd is an equal opportunity employer and value diversity. All employment is decided on the basis of qualifications, merit and business need.
